

$$(1) 11 - 6 = 5$$

A number bond diagram for 11, showing 10 in a red circle and 1 in a red circle, connected by a green line.

$$(5) 12 - 5 = 7$$

A number bond diagram for 12, showing 10 in a red circle and 2 in a red circle, connected by a green line.

$$(9) 15 - 6 = 9$$

A number bond diagram for 15, showing 10 in a red circle and 5 in a red circle, connected by a green line.

$$(13) 14 - 6 = 8$$

A number bond diagram for 14, showing 10 in a red circle and 4 in a red circle, connected by a green line.

$$(2) 14 - 5 = 9$$

A number bond diagram for 14, showing 10 in a red circle and 4 in a red circle, connected by a green line.

$$(6) 16 - 8 = 8$$

A number bond diagram for 16, showing 10 in a red circle and 6 in a red circle, connected by a green line.

$$(10) 12 - 3 = 9$$

A number bond diagram for 12, showing 10 in a red circle and 2 in a red circle, connected by a green line.

$$(14) 16 - 7 = 9$$

A number bond diagram for 16, showing 10 in a red circle and 6 in a red circle, connected by a green line.

$$(3) 18 - 9 = 9$$

A number bond diagram for 18, showing 10 in a red circle and 8 in a red circle, connected by a green line.

$$(7) 13 - 5 = 8$$

A number bond diagram for 13, showing 10 in a red circle and 3 in a red circle, connected by a green line.

$$(11) 17 - 8 = 9$$

A number bond diagram for 17, showing 10 in a red circle and 7 in a red circle, connected by a green line.

$$(15) 13 - 9 = 4$$

A number bond diagram for 13, showing 10 in a red circle and 3 in a red circle, connected by a green line.

$$(4) 15 - 9 = 6$$

A number bond diagram for 15, showing 10 in a red circle and 5 in a red circle, connected by a green line.

$$(8) 11 - 4 = 7$$

A number bond diagram for 11, showing 10 in a red circle and 1 in a red circle, connected by a green line.

$$(12) 13 - 6 = 7$$

A number bond diagram for 13, showing 10 in a red circle and 3 in a red circle, connected by a green line.

$$(16) 12 - 8 = 4$$

A number bond diagram for 12, showing 10 in a red circle and 2 in a red circle, connected by a green line.
