

重さのたんいと表し方

たんいのくり下がりのあるひき算 3(6)

次の計算をしましょう。

2
$$lkg250g - 500g = l250g - 500g$$

= 750g

$$\frac{3}{6} 6 kg 300g - 2kg 500g = 6300g - 2500g = 3800g = 3kg 800g$$

3
$$6 kg300g - 2kg500g = 6300g - 2500g$$
 4 $8 kg100g - 7kg400g = 8100g - 7400g$
= $3kg800g$ = $3kg800g$

5
$$5 kg800g - 2kg900g = 5800g - 2900g$$
 6 $1 kg400g - 450g = 1400g - 450g$
= $2900g$ = $950g$
= $2kg900g$

$$7 | lkg | 00g - 800g = | | 00g - 800g = 300g$$

9
$$9 kg500g - 4kg700g = 9500g - 4700g$$
 | 0 $1 kg100g - 450g = 1100g - 450g$
= $4800g$ = $650g$
= $4kg800g$

$$| lkg|00g - 450g = | | 00g - 450g = 650g$$
