## 式と計算

年 組 名前

( )のあるたし算とひき算2(7)

計算をしましょう。

$$\square$$
 (I)  $12-5+6=13$ 

$$2 | 12 - (5 + 6) = | 2 - | 1$$

$$3 (1) 23 - 10 - 3 = 10$$

$$23-(10-3)=23-7$$
  
= 16

$$(1) 41 - 12 - 3 = 26$$

$$241 - (12 - 3) = 41 - 9$$
  
= 32

$$7 \ \ \bigcirc 34-3-24-5=2$$

$$2 34-3-(24-5) = 34-3-19$$

$$= 12$$

$$2 (1) 14-8-6=0$$

$$2 | 4-(8-6) = | 4-2 = | 2$$

$$(1)$$
 29 – 18+5 = 16

$$29-(18+5) = 29-23$$
  
= 6

$$6 \ (1) \ 16-8-4+6=10$$

$$(1)$$
 27 - 8 + 8 - 3 = 24

$$27-(8+8-3)=27-13$$
  
= 14
